Subject: letter to Mountaire Farms re: 1/4ly report

Rick, FYI attached is a copy of the letter that was sent to Mountaire Farms. During the February meeting with Mountaire I asked that changes be made to quarterly reports that they submit. The 1st quarter 2018 arrived a couple of weeks ago and they did not incorporate the changes. So I am asking for a revised report.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

MAY 21 2018

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Mr. Michael W. Tirrell
Executive Vice President of Processing Operations
Mountaire Farms of Delaware, Inc.
P.O. Box 1320
Millsboro, Delaware 19966

Re: Mountaire Farms of Delaware, Inc.
Order on Consent, Docket No. SDWA-03-2003-0015

Dear Mr. Tirrell:

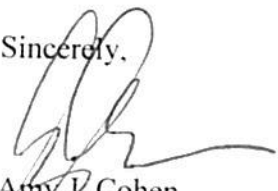

EPA received your letter dated April 19, 2018 with attached monitoring well data. The letter, which serves as a Progress Report (Report) as required by paragraph 51 of the above referenced Order, also included the certification statement as required by paragraph 52.

However, as was discussed at the February 12, 2018 meeting between Mountaire and EPA, the current Report is lacking information and therefore does not satisfy the requirements of paragraph 51 of the Order. Paragraph 51 specifically requests a summary of all actions taken to comply with the terms of the Order during each quarterly reporting period. In addition to the submission of the monitoring well data, EPA is requiring Mountaire to provide a written accounting of all actions taken that pertain to the maintenance of the point of use/entry treatment devices and/or bottled water that is supplied to the affected residences identified in Attachment 3 of the Order. In addition, the certification statement of each Report must include the statement that Mountaire is continuing to maintain the point of use/entry treatment devices and/or continue to supply bottled water to those affected residences.

Please submit a revised Report with the proper certification statement and include any relevant information regarding the affected residents' water supply and maintenance.

If you have any questions regarding these comments or the Order, please contact me at 215-814-3296.

Sincerely,

Amy J. Cohen
Environmental Scientist
